

Good afternoon,

Wed, Dec 14 at 4:27 PM

I just received word from Mississippi State Department of Health (MSDH) that the **Boil Water Notice has been lifted**.

<https://msdh.ms.gov/page/23,24971,148.html>

MSDH recommends that you:

- 1) Flush faucets for a total of 10 minutes to introduce system water throughout house plumbing.
Example:
1 faucet... run for 10 minutes
2 faucets... run both for 5 minutes
3 faucets... run each for 3-4 minutes
Flush any faucet a minimum of 2 minutes to ensure clearing of the line serving the faucet.
- 2) Discard any drinks, ice, food, etc., made during the boil water notice.
- 3) Rewash any food or drink contact items (knives, forks, plates, etc.) with "cleared" system water.
- 4) Check water filters (in faucets, refrigerators and elsewhere) and replace if necessary.
- 5) Do not use water from your hot water heater for drinking until several exchanges of the tank have occurred.
- 6) Run your dishwasher through a cycle or two before washing dishes.
