Main Street RR crossing...

Work on improving the railroad crossing at Main Street is expected to begin sometime in April, once CSX railroad has flaggers available for the work site. The roadway on the north and south side of the crossing will be raised so that the roadway across the tracks is level. There will be a more gradual slope back down to the existing roadway on both sides. Gulf Breeze Construction will be working the \$318,000 project that's expected to take about 65 days, if weather doesn't become a factor.
