Good afternoon,

I am sharing the following information from the Harrison County Utility Authority (HCUA) with you regarding garbage and trash pick tomorrow/Friday...

Paul

Good afternoon,

Due to the severe weather that impacted our area last week, Pelican Waste is running behind. Routes will not finish today (still currently running) and they will be back out first thing in the morning to finish any areas they didn't get to. This will impact tomorrow's routes running behind as well.

I just wanted to give everyone a heads up. I will send out the areas not finished later this evening when they send them to me.

Thank you,

**Alan Lane**
