Summer Reading program [Library locations](#) [Get a library card](#) [More...](#)

Every summer the libraries present a two-month long Summer Reading Program for children and teens. Young readers keep track of the books they read in order to receive certificates of achievement and reading rewards. Each library presents a variety of age-appropriate programs based on the Summer Reading theme for that year. The program is free and open to all preschool and school aged children. Registration is required and a minimum number of books must be read to complete the program. Please contact the children's librarian at the location nearest you to learn about registration and programming.
